NICE. TRUTH DEPENDS ON IT

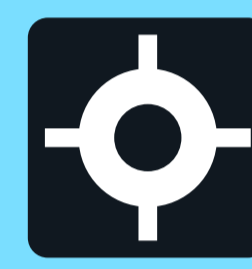

8 WAYS COURTS ARE ACHIEVING TIMELIER JUSTICE WITH AI-POWERED DIGITAL EVIDENCE MANAGEMENT

1

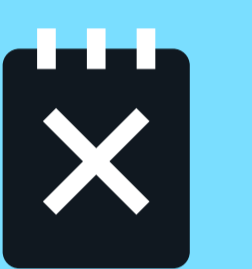

Integrates digital evidence into the flow of court proceedings to help everyone work more efficiently and achieve timelier justice for victims.

2

All files are entered into evidence and tracked digitally, for comprehensive exhibit management. Eliminates need for thumb drives, paper and discs.

3

Built-in redaction and other evidence management tools eliminate trial interruptions.

4

Video evidence is always playable without the need for specialized players/codecs.

5

Trial exhibits containing multimedia evidence (synchronized on timelines) can be played in court for juries.

6

Secure chain of custody prevents tampering or unauthorized access, enhancing the credibility of the evidence presented in court.

7

Cost savings from eliminating manual and paper-based processes, reduced processing times and improved resource allocation within the court system.

8

Facilitates seamless collaboration and electronic sharing among court personnel, attorneys and other stakeholders involved in the legal process.
